Subject: 48499 Enfidha 'RE: Feedback on SAC execution and implementation '

Dear Pranita,

In my opinion, the SAC execution and implementation at Enfidha went perfectly well. You started from scratch, the FAT were very well organized, successful (except that I never received the MOM) and as per schedule. On site, some 'minor' modifications has been done to be compliant to the customer request. As a project manager point of view, it was a good job.

Best regards,

Yan Lévêque
